

Jumpstart Your Chronic Care Management Program

Barbara Hays, CPC, CPCO, CPMA, CRC, CPC-I, CEMC, CFPC

Samuel "Le" Church, MD, MPH, CPC, CRC, FAAFP

Objectives

At the end of this session the learner will be able to...

- ▶ Identify key components of CCM
- ▶ Present rationale for starting a CCM program
 - 1) Patient Care
 - 2) Resource Optimization
- ▶ Produce an implementation plan for CCM

CCM Underlying Theme

- ▶ Reduce hospitalizations
- ▶ Reduce emergency visits
- ▶ Care team gets paid for services delivered
- ▶ **Improved CARE**

Questions to Ponder

Does your clinic provide
Chronic Care Management
Services?

- ▶ If so, how many patients are being served in the clinic? Share a success story with your neighbor.
- ▶ If not, share your rationale of why you haven't implemented a CCM program or why you have stopped the program.

CCM Overview

- ▶ Provides non-face to face team care
- ▶ Requires a consent
- ▶ Requires a care plan in place
- ▶ Requires 2 chronic diseases
- ▶ Requires at least 20 minutes in one month
- ▶ Work performed by anyone on clinical team

Complex CCM

- ▶ Same as CCM
- ▶ Requires 60+ minutes in calendar month
- ▶ Care plan change or creation
- ▶ Requires moderate decision making
- ▶ Involves Qualified Healthcare Professional (QHP)

Who is clinical staff?

"a person who works under the supervision of a physician or other qualified health care professional and who is allowed by law, regulation and facility policy to perform or assist in the performance of a specified professional service; but who does not individually report that professional service."

CPT Professional 2019 p xii

"Incident to" rules

- ▶ Service doesn't have to be in-house
- ▶ "Incident to" exception – provider needs to be accessible
- ▶ What about outsourcing?

Outsourcing

- ▶ May streamline expansion of clinical team
- ▶ May not clearly achieve team CCM goals
- ▶ Billing provider responsible in audit, etc.
- ▶ Perform litmus test with comparison to next slide statements

“All CCM service codes are valued to include ongoing oversight, management, collaboration and reassessment by the billing practitioner consistent with the included service elements. This work cannot be delegated or subcontracted to any other individual.”

https://www.cms.gov/Medicare/Medicare-Fee-for-Service-Payment/PhysicianFeeSched/Downloads/Payment_for_CCM_Services_FAQ.pdf

“If there is little oversight by the billing practitioner or a lack of clinical integration between a third party providing CCM and the billing practitioner, we do not believe CCM could actually be furnished and therefore the practitioner should not bill for CCM.”

https://www.cms.gov/Medicare/Medicare-Fee-for-Service-Payment/PhysicianFeeSched/Downloads/Payment_for_CCM_Services_FAQ.pdf

How is time calculated?

- ▶ 10 minute discussion of case between two clinical staff is 10 minutes, not 20 minutes
- ▶ Not subject to 50% rule

Services Provided

- ▶ CMS expects all scope of service elements to be provided
- ▶ Exception: not medically indicated or necessary
- ▶ Perform all parts of the code descriptor

Appropriate CCM Activities

- ▶ Create or update care plans
- ▶ Just about anything in support of care plan
- ▶ Mine consult notes – chart, address, follow-up
- ▶ Medication management / reconciliation / PAs
- ▶ Family phone calls
- ▶ Administrative tasks by clinical staff

Inappropriate Activities to Bill

- ▶ Work overlapping with other E/M services
- ▶ Work by non clinical staff
- ▶ Work if no consent or no care plan

Other CCM Pearls

- ▶ No phone call required
- ▶ Billing not required every month
- ▶ Time does not carry over
- ▶ Count any task consistent with care plan
- ▶ Much of work is work already being performed
- ▶ Administrative time (i.e. charting) counts

CCM in Action

- ▶ Need QHP and staff champions
- ▶ Understand care goals and underlying theme
- ▶ Have time tracking process
- ▶ Work up to implementation and start new staff communication

Early Analysis – Do The Math

500 Medicare patients...	
2/3 estimated to be eligible	= 335 patients
Medicare payment = \$41.58 ...	\$41.00
Monthly income	= \$13,735
Yearly income	= \$164,820

ABOUT US

Your Care Team is comprised of all Synergy Health Team Members with yourself at the lead. From the Front Desk to Clinical, we aim to make your in-office experience pleasurable and your in-between care a team effort of seamless care coordination.

Patient Portal

- Schedule appointments
- Message staff for non-emergencies
- Update your medical history
- Request Refills
- View Lab and Radiology Reports

CHRONIC CARE MANAGEMENT

Contact us for information.

Am I Eligible?

Yes, if you have:

- Medicare or a Medicare Advantage Insurance Plan
- 2 or More Chronic Diseases (expected to last greater than 12 months)

706-896-0505

85 Seasons Lane
Hiawassee, GA 30546

A program designed just for you.

A Medicare Part B Benefit

Develop a Custom Brochure

OUR SERVICES

Care Management is defined as placing the emphasis on the care of the Whole Person and managing all of the patient's care needs.

What is Chronic Disease?

A Chronic Disease is a condition that can be controlled, but not cured. These include conditions such as Diabetes, High Blood Pressure, and High Cholesterol.

Enrollment

The enrollment process can begin at your appointment today. Ask your Provider if Chronic Care Management services are right for you!

This is a Medicare Part B benefit. While it is subject to co-insurance and co-pays, most patients who have supplemental plans find there is no additional out-of-pocket costs to participate.

1 Reduce Emergency and Urgent Care Visits

Chronic Care Management has shown great reduction of Emergency Department visits and Urgent Care visits.

3 Care Coordination

Care Coordination with Specialists such as Cardiologists, Surgeons, etc. Arrange and interact with Home Health, Assist with hospital transition.

Why choose us:

- We will work with you to develop a Care Plan specifically tailored to meet your needs.
- Access to services 24 hours a day, 7 days a week.
- Complete, year-round care to keep you healthy and happy.
- Take charge of your health with a dedicated Care Team by your side.

2 Between Visit Care

Interaction with a Care Team Member complementing your recent or upcoming Primary Care visit.

4 Medication Management

Access to a Care Team Member to manage your medications: refills, prior authorizations, etc.

Slow Rollout

- ▶ Doesn't have to be perfect
- ▶ Identify appropriate patient TYPE
- ▶ QHP and staff identifies patients to enroll
- ▶ Be excited... invite, enroll, change culture
- ▶ Transition from episodic care to team care

First Steps

- ▶ Spend time on care plans *
- ▶ Show value to patients early
E.g. – schedule a nurse call to review BP logs in a few weeks in lieu of an office visit – a win-win!
- ▶ Explain payment clearly
\$41, subject to co-insurance (20%)
